EAA Chapter 113

Inside This Issue

Club Discussions

Old & New business

Office Reports

Announcements

Miscellaneous & Fun Stuff

President Bill Slabey opened the meeting at 7:00 with 23 members Present.

Discussions

Old business:

Discussion on Runway Repair:

Jack contacted Nagle Paving and reported that they will be working on repairs some time at the end of the week. Earlier on Tuesday the 27, the paving company came out and marked off a 20 x 315 foot section for repair. While they are out there working no one is to fly.

Discussion on FAA rules:

Joe reported the FAA is planning a national drone registry, They are targeting to define the rules by Christmas. These FAA rules and policies including which “drones” will be included, how users will register the devices, and whether the policy will apply to devices that have already been sold are being hashed out by officials at this time.

Bill reported, the AMA has sent him two form letters for the purpose of communicating with our local airport (Willow Run). One letter’s format was less informal announcing our presence and our conformance to FAA guidelines. The other letter wording is more in the form of a legal document. It was discussed that we would draft a version of the first letter and present it at the next meeting for discussion.

Look for updated information by club officials and your local news stations as things develop. At present we are to continue with the status quo.

The Big Bird - Giant Scale Annual Fundraiser:

Jack reported we had a net income that exceeded expectations considering the weather on Saturday. Not giving away food to pilots helped with the net income for the event. Thanks to all who helped to make this happen.

Discussion on web site:

Our webmaster Carl has a great site started but was not present to give details.

New business:

The Christmas Party:

As you may know, last year was our last year at the Roman Forum. Thanks to Gregory Gatto (owner) we had a nice 5 year run. With that, the search was on for a new hall. With the holidays approaching, Jack came through with a great new site at the Hanford Clubhouse in the Sunflower Village subdivision. The address is 45800 Hanford Rd. Canton, Mi. 48187. Next month's letter will include a picture and map to the location.

Discussion on snow removal:

A motion was made to have snow removed to a maximum of 2 times this coming calendar year (2016) and to budget \$160 for this purpose. Vote taken, motion passed.

The morning crew's shelter:

Thanks to the morning crew flyers; the shelter is now up. The club also bought some new "big boy" chairs on an end of the year sale.

ANNOUNCEMENTS / REMINDERS:

No test development of commercial UAV's are allowed at the field.
Call out warnings of approaching full size aircraft.
Fly at a safe low altitude relative to oncoming full size aircraft.

Dan D (Sec)

If you have any items you would like to sell and list in the new letter, feel free to email me a picture. I will be happy to describe and list them. Anything worth mentioning for the Fun Stuff section, ongoing projects etc. welcome as well.

secretary@flyingpilgrims.com

If you're interested in getting more information or joining the club. Please feel free to contact me, see us at the field or attend our monthly meeting.
