June 18th, 2025 Newsletter and meeting minutes.
 Next meeting is scheduled July 16th, 2025 at 7:00PM,
 this summer meeting will be held **At the Flying Field.**

Call to Meeting

President's Report:

Dale Harrison called the meeting to order at 7:00PM. There were 18 members present. Minutes of the May 21st meeting were approved.

Everything in the club is going well, and Dale reported that the field tall grass will be mowed within a week, and then again just before the Fall Phase-Out Flying Event. On another note, an unfortunate member of the club hit the gas instead of the brake and mowed down the end of the spectator fence east of the West End shelter and went all the way to the safety fence, but did not get to the runway! Dale assured us that this person has already stated that he will take care of the repairs.

Regarding the upcoming Thunder Over Michigan airshow at Willow Run, there will be TFRs issued directing us from flying our unmanned aircraft during times of the show and of the practice runs. This year there is a new addition to the TFRs, in that Willow Run will be able to send out a signal that will bring down your plane or drone by interfering with your radio signal. One more good reason not to fly during those directives.

One more reminder: **Please avoid spilling fuel onto the grass areas of the pit. It kills the grass and we should be more considerate to take care of our field and its appearance.**

Treasurer's Report:

Jim reported 126 members paid, close to what we had last year at this time. Reminder to members that the \$20 late fee is already in effect for club dues. Please pay your dues if you intend to join again this year to get the most for your money. We are above budget in our accounts from this time last year.

C.D.s Report: Jack Javor:

Jack is seeking volunteers for the various jobs needed to be performed for the upcoming Fall Phase-Out Flying Event in September. He will soon have a form to take names for those of you who will help organized into the various jobs and tasks needed to make this run as smoothly as it did last year. He will probably have it for this July meeting.

Upcoming Events

Mark your calendars for these events. Fun-Flys as follows:

Aug 10 (Rain Alternate August 17) This puts 5 weeks until the Fall Phase Out.

Fall Phase-Out Fun Fly Event is scheduled for September 13 and 14.

Meeting Adjournment

The meeting was adjourned by Joe at 7:34 to begin show and tell.

Field Safety

starts with all members' vigilance!

Be sure to read your club's rules. They are posted on the west shelter. They are also posted on the website under the Rules and By-Laws tab.

Your plane (drone) needs to be registered with FAA. Click here on the [Drone Zone](#) to update or verify your registration. Follow instructions for how to label your plane and how to obtain your FAA registration.

Show and Tell

Gary Figi brought one of his plane in to show off the OneCam6 wi-fi mini camera that he mounted onto the cockpit for aerial photos from a plane as opposed to the drone cameras we see often. It only weighs 4 oz and is available at Ebay and Amazon among other photo shops. Cost is about \$20. I tried to find a link for you online, but the name Gary gave did not come up exactly. In any case, there are many of these available out there if you search for a mini wifi camera.

I could not find one online that matched this exact image.
